Profile

First/given name:
Jordan

Last/family/surname:
Okafor

Date of birth:
07/02/2009

Permanent home address:
818 W Grace St, Chicago, IL 60613

Demographics

Citizenship status:
U.S. permanent resident

Family

Parent 1 highest level of education:
High school graduate

Parent 2 highest level of education:
Bachelor's degree

PREVIEW

Education

Current or most recent secondary/high school:
Lane Technical College Prep High School

Graduation date:
June 2027

Grades

Graduating class size (approx.):
1,050

Class rank reporting:
None

Cumulative GPA:
4.31

GPA scale:
5

GPA weighting:
Weighted

Current or Most Recent Year Courses

Course title:
Calculus BC

Course level:
Advanced Placement (AP)

Course title:
Physics C: Mechanics

Course level:
Advanced Placement (AP)

Course title:
English Literature

Course level:
Advanced Placement (AP)

Course title:
Spanish V

Course level:
Honors

Course title:
Multivariable Calculus

Course level:
Dual Enrollment

Course title:
Civics

Course level:
Regular/Standard

PREVIEW

Testing

Highest evidence-based reading and writing score:
720

Highest math score:
770

AP subject:
Biology

AP score:
5

AP subject:
Calculus AB

AP score:
5

Honors

Honor 1

Honors title:
National Merit Semifinalist

Grade level:
12

Level(s) of recognition:
National

Honor 2

Honors title:
Illinois Science Olympiad, 1st place Chemistry Lab

Grade level:
11

Level(s) of recognition:
School, State/Regional

Honor 3

Honors title:
Principal's Honor Roll

Grade level:
9, 10, 11

Level(s) of recognition:
School

Activities

Activity 1

Activity type:
Science/Math

Position/Leadership description:
Co-captain

Organization Name:
Lane Tech Science Olympiad

Please describe this activity, including what you accomplished and any recognition you received, etc.:
Led 28-member team to 2nd at state; built the chemistry lab protocol binder; tutored 10 freshmen

Participation grade levels:
9, 10, 11, 12

Timing of participation:
During school year, During school break

Hours spent per week:
8

Weeks spent per year:
30

I intend to participate in a similar activity in college.:
Yes

Activity 2

Activity type:
Community Service (Volunteer)

Position/Leadership description:
Volunteer tutor

Organization Name:
Chicago Public Library, Lincoln Park

PREVIEW

Please describe this activity, including what you accomplished and any recognition you received, etc.:
Tutor elementary students in reading twice a week; 300+ hours total

Participation grade levels:
10, 11, 12

Timing of participation:
During school year, During school break

Hours spent per week:
4

Weeks spent per year:
40

I intend to participate in a similar activity in college.:
Yes

Activity 3

Activity type:
Work (Paid)

Position/Leadership description:
Cashier

Organization Name:
Mariano's

Please describe this activity, including what you accomplished and any recognition you received, etc.:
Weekend shifts to help with family expenses

Participation grade levels:
11, 12

Timing of participation:
During school year, During school break

Hours spent per week:
15

Weeks spent per year:
48

I intend to participate in a similar activity in college.:
Yes

Future Plans

Career interest:
Chemical Engineering

Writing

Personal essay

Some students have a background, identity, interest, or talent that is so meaningful they believe their application would be incomplete without it. If this sounds like you, then please share your story.

My grandmother measures rice with her knuckles. Water to the first crease, she told me when I was

PREVIEW

six, and for years I believed every pot in Chicago worked that way.

In tenth grade chemistry I learned why it works: the ratio stays the same because the depth of the rice sets the depth of the water. I came home and tested it with three pots and a ruler, and wrote the numbers on the back of an electric bill. She laughed and said the knuckle was faster.

That kitchen experiment became my Science Olympiad lab binder. I started writing down every protocol the way she taught me to cook: what you see, what you smell, when to stop. Our team used it at state. When a freshman asked me why we bothered writing it all down, I told her the truth: because someone taught me, and someone will need to learn from us.

I want to study chemical engineering because I like the moment a rule of thumb turns into a reason. But I have stopped thinking the reason is better than the rule. My grandmother never needed the ruler. She needed someone to keep asking her why.

Additional information

Do you wish to provide details of circumstances?:
No
